More Disclosure Problems at the Constitutional Court - FOR Files a Complaint with the Provincial Administrative Court

Synthesis:

- In the asset declarations of Rafał Wojciechowski and Jarosław Wyrembak, persons occupying the positions of judges of Julia Przyłębska's Constitutional Tribunal, the information about employment at the university is blurred in a way that makes it impossible to read.
- According to the case law of the administrative courts, information about a university lecturer is public information by the very fact of being employed at a public university; it is also standard practice for non-public universities to disclose the employer in an asset declaration.
- In response to a request for access to public information, the President of the Constitutional Tribunal refused to provide information on the rationale behind withholding information on the employment of judges and gave an incomplete answer to the question of listing the places of employment of judges, which amounts to inaction on the part of the authority.
- As a result, a complaint was filed with the Provincial Administrative Court against the inaction of the President of the Constitutional Tribunal in relation to access to public information.

Civil Development Forum (FOR)

FOR was established in 2007 by Professor Leszek Balcerowicz to effectively protect freedom and promote truth and common sense in the public discourse. Our goal is to change the consciousness of Poles and the current and planned law in the liberty-oriented direction.

FOR implements its goals by organizing debates and publishing reports and analyses that address important social and economic issues, in particular: the state of public finances, the situation on the job market, economic freedom, the justice system and the creation of laws. On the initiative of FOR, a public debt counter was launched in the center of Warsaw and on the Internet, which draws attention to the problem of rising national debt. The activities of FOR also include economic education projects and participation in campaigns aimed at increasing voter turnout.

Support us!

Common sense and the libertarian point of view will not stand up for themselves. They need a planned, sustained, effective effort and your support.

If you are close to a social order that respects liberty and you fear the unwise decisions of politicians pretending to be Santa Clauses at your expense, please support our activities.
